

CONFIDENTIAL

To Whom It May Concern,

I/My Child _____ have/has a medical condition
_____ that may require urgent attention.

To facilitate the emergency care that may be required, your assistance is requested.

I wish to provide an AT Risk Rescue Kit to be held on site. It will contain an explanation of the problem, a management plan, and necessary medications. Should treatment be required, it may be lifesaving.

With respect to the storage and use of the Kit, neither your institution nor persons administering care will be held responsible for outcome. The Kit contains an Attention Form confirming this agreement.

The contents of the Kit, including the Problem Card, the Management Card, and the medications are solely my responsibility to maintain and there will be no liability, vicarious or otherwise, associated with the storage and use.

Please mount the Kit by itself or attached to an At Risk Rescue Station, in a highly visible location, such as the staff room, the first aid room, or in the Administrator's office.

Thank you for your assistance.
